***Allowable Subject Matter***

Claims 1, 2, 4-8, and 10-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 has been amended to include limitations that are similar to claim 11, which was objected to for being dependent upon a rejected base claim, but would be allowable if rewritten in independent form. In particular, claim 1 has been amended such that the low-pass filter contains a first second-order LC filter of high impedance at the input of the device. A second filter by way of isolation circuitry follows the first filter. In contrast, the figures of Stewart clearly depict that the isolation circuitry is not in-between two filters, but in front. For at least these reasons, claim 1 is allowable over Stewart.

Claims 2, 4-8, and 10-16 depend on claim 1, and are allowable over Stewart for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
